

Symposium on Intensive Care Medicine + Nursing

Bremen, February 15 - 17, 2017

INTERNATIONAL MEDICAL CLASS
PAEDIATRIC CRITICAL CARE 2017

Symposium
Intensivmedizin + Intensivpflege

15. – 17. Februar 2017
Messe und Congress Centrum Bremen

Welcome

We cordially invite you to participate in the 2nd International Medical Class Paediatric Critical Care within the 27th Bremen Symposium on Intensive Care Medicine + Nursing.

About a third of the world's population is still without access to adequate quality health care. In poor countries particularly, the absence of paediatric critical care resources leaves parents without any chance to receive the needed life-saving treatment for their seriously ill children. Lack of qualified staff and financial resources are the major problems.

Robin Aid Foundation is committed, within the international medical network of Chaîne de l'Espoir Europe, to set up paediatric critical care in poor and underserved countries. Local partner hospitals receive support from medical teams, equipment and structured training programs.

Education as well as exchange of experiences are fundamental needs which enable local physicians and nurses to become

self-sufficient as soon as possible. On their way to independence access to international knowledge as well as personal contacts to foreign colleagues are of great importance.

The International Medical Class Paediatric Critical Care provides such a forum. Fellows from different international projects of RobinAid and Chaîne de l'Espoir Europe are invited to attend on this annual scientific event.

The International Medical Class is also addressing all vocational colleagues (physicians and nurses), who deal with paediatric critical care topics and would like to broaden the horizon of their own experience to see the bigger picture.

Learning from and with each other in common workshops as well as personal encounters open doors for caring relationships between different medical worlds and cultures:

Medicine is going to build bridges.

February 15, 2017; 16:15 - 18:45 h

Welcome and introduction

Matthias Angrés (Hamburg, DE)

Special, but interesting:

Selected case reports from our different international projects

Moderation:

Matthias Angrés (Hamburg, DE)

Eliza Cinteza (Bucharest, RO)

From the Shisong Cardiac Center:

Treatment of congenital and acquired heart defects in the back country of Cameroon

Matthias Angrés (Hamburg, DE)

From the Bucharest Marie Curie Children's Hospital:

Management of acute myocardial injury in a 14 years old boy with Duchenne Muscular Dystrophy (DMD)

Eliza Cinteza (Bucharest, RO)

From the Cairo Giza El Agouza Hospital:

Postoperative management after total repair of Shone's Syndrome in a 5 years old boy

Mahmoud Aslan (Cairo, EG)

From the Kabul French Medical Institute for Children:

Successful separation of conjoined twins

Jalil Wardak / Taibullah Bandawal (Kabul, AF)

Workshop 2

February 16, 2017; 13:45 - 16:15 h

Specific, but important:

Paediatric infectious diseases in resource-limited countries

Moderation:

Johannes Hübner (Munich, DE)

Matthias Angrés (Hamburg, DE)

It's a shame:

Malnutrition as an underlying cause of infectious diseases and infant mortality

Frank Jochum (Berlin, DE)

It's a major killer:

Aetiology of community-acquired neonatal and infant sepsis in low and middle income countries

Johannes Hübner (Munich, DE)

It's a great challenge:

Treatment of septic shock in resource limited environments

Michael Sasse (Hanover, DE)

It's a need for simple solutions:

Prevention of healthcare-associated infections

Susanne Schmidtke (Hamburg, DE) (angefragt)

February 17, 2017; 12:00 - 14:30 h

Challenging, but solvable:

Setting up Paediatric Intensive Care Units in underserved and resource-limited countries

Moderation:

Alexander Leis (Geneva, CH)

Matthias Angrés (Hamburg, DE)

Close of the 2nd International Medical Class

Summary, closing remarks and farewell

Werner Kuckelt (Bremen, DE)

Replicating Paediatric Intensive Care Units:

The importance of structure, process, and outcomes

Matthias Angrés (Hamburg, DE)

On the way to independence:

The importance of capacity building to become self-sufficient as soon as possible

Mahmoud Abdalla / Emad Nasr (Aswan, EG)

Contemporary communication tools:

The importance of online access to international medical information and networks

Hartwig Jaeger (Berlin, DE)

Answer a critical question:

Can infant mortality be reduced by the development of effective paediatric emergency and critical care services?

Alexander Leis (Geneva, CH)

Session chairs and speakers

Dr. Mahmoud Abdalla
Paediatric Intensivist
Aswan Heart Centre

Dr. Mahmoud Ahmed Aslan
Resident in Paediatric Critical care
Cairo National Heart Centre

Dr. med. Matthias Angrés
Anaesthetist + Intensivist
Hamburg RobinAid Foundation

Dr. Taibullah Bandawal
Paediatrician
Kabul French Medical Institute for Children

Dr. Eliza Cinteza
Paediatric cardiologist
Bucharest Marie Curie Children's Hospital

Prof. Dr. med. Johannes Hübner
Paediatrician + Microbiologist
Munich University Hospital (LMU)

Dr. med. Hartwig Jaeger
Physician + Expert in Digital Health
Berlin Healthcubator

PD Dr. med. Frank Jochum
Paediatrician + Intensivist
Berlin Evangelisches Waldkrankenhaus Spandau

Prof. Dr. med. Werner Kuckelt
Anaesthetist + Intensivist
Bremen Symposium on Intensive Care Medicine + Nursing

Dr. med. Alexander Leis
Paediatrician + Intensivist
Geneva Hôpital de La Tour

Dr. Emad Nasr
Paediatric Intensivist
Aswan Heart Centre

Dr. med. Michael Sasse
Paediatrician + Intensivist
Hanover Medical School

Dr. med. Susanne Schmidtke
Paediatrician + Neonatologist
Hamburg Asklepios Hospital Barmbek

Dr. Jalil Wardak
Paediatric Surgeon
Kabul French Medical Institute for Children

Organizational notes

The International Medical Class is a joint project between the Bremen Symposium on Intensive Care Medicine + Nursing and RobinAid Foundation carried out for the second time during the 27nd Symposium in February, 2017.

The invited fellows are coming from different international projects of RobinAid and Chaîne de l'Espoir Europe. Stay in Bremen and participation at the International Medical Class as well as at the entire symposium are organized by RobinAid Foundation.

All others physicians and nurses sign up for the workshops as part of the registration for the entire symposium.

In order to be able to work intensively the number of places is limited. The workshops will be held in English language.
